

# Recommended Emergency Apps

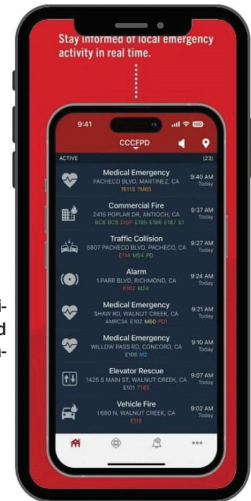

## Download these helpful APPS **Watch Duty**

Monitor wildfires in your area on your phone. This app updates you on wildfire activity and you can turn notifications on for incidents you want to be updated on.

## Download these helpful APPS **Pulse Point**

Stay informed of local emergency activity in real time. App has a map view and incident locations with agency information and jurisdictional boundaries.

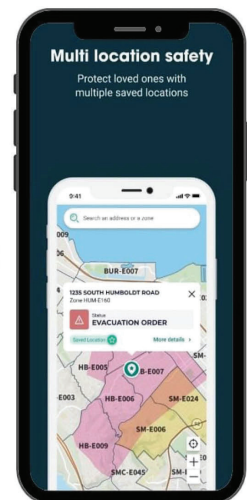

## Download these helpful APPS **MyShake**

Download this Earthquake tracker. It is a worldwide earthquake map and you can set your location to track earthquakes in your area.

## Download these helpful APPS **Genasys Protect**

Be ready when it matters. Genasys Protect keeps you safe in an emergency and sends you alerts from local emergency officials. This is the system being used for evacuations. Download it, know your zone and be prepared in case of evacuations.

# City of Claremont Communication

## Social Media

Follow the @CityofClaremont on social media. The City posts events, news, and public notices on Facebook, Instagram, YouTube, Nextdoor, and X.

## City Mobile App

The City app is an easy way to report an issue, request an overnight parking exemption, and receive emergency notifications. The App is available on iTunes and the Android Store.
